

PRECEPT AND PRACTICE

He believes in the principles of Democracy.

He believes in economy in government.

He believes in equal enforcement of the law without regard to race, rank, or relatives.

He believes that a public office should be conducted for public good, not for private gain.

During his tenure as Chairman of the Roosevelt County Democratic Central Committee he endeavored to secure party harmony and

- (a) he worked to secure the enactment of the primary law;
- (b) he successfully worked to secure the adoption by the Roosevelt County Democratic Central Committee of the principles of "Hatch Clean Politics Act" (the only political organization in New Mexico to do so);
- (c) while Democratic Chairman, he required and secured the resignation of all members of the Committee as soon as they announced as candidates for public office.

The politicians who habitually control machine politics purely for pay-roll and personal interests are opposed to Hensley. He is proud of that kind of opposition.
